## Testimonials

### Doula support

Dear Erika, Thank you so much for all your support, encouragement, persistence and patience throughout Georgie's birth. I know I presented plenty of challenges and spent a lot of time rejecting everything that was offered to me. But your willingness and ability to stay present even when I couldn't meant that I got the birth I really wanted. As I said I wouldn't and couldn't have done it without you. So thanks for trusting things when I couldn't, for asking questions when I was too out of it to think of them, and for being an invaluable support to my partner. I'm so grateful and happy that we made the choice to make you a part of our team. Thanks again, Kate and Hop.

Erika provided us with all the possible Doula benefits you'll read about online and did so in a way that was so enriching, engaging and empowering, we couldn't wait for our next meeting with her. She was worth the investment!

She gave us a multitude of tools to prepare for birth mentally and physically and did so with much warmth and professionalism. She made it so easy for us to place our full trust in her and at the end, during the birth, her calm and caring presence in conjunction with her wealth of knowledge and experience gave us the confidence we needed to achieve the natural, drug free birth we so much wanted for our baby.

He was born into this world healthy and safe, calm, content, strong and alert without the need for any intervention and my recovery was faster than I could have imagined. We attribute much of this to Erika's incredible service, the way in which she prepared and educated us, along with her guidance and emotional support during both pregnancy and labour. After what she did for our little family and the way in which she did it, we could not recommend her highly enough. Cassy and Andrew 2013

"My confidence to B.R.A.I.N. a situation to help my wife and baby has sky-rocketed. Thank you!"  
Craig - first time dad to be.

### Beer + Bubs class

Birth can be so intimidating to think about, but after the Beer + Bubs session I was feeling so much better. I understood how I could help my partner and myself have a better birth experience. It was cool to hang with other dads to be also. Sam.
